

Cumberland Valley Analytical Services - Domestic/Canada Price List

Wet Chemistry Packages

Standard Analysis - \$31.00
CPM Plus Analysis - \$72.50
CPM Plus Kd Analysis - \$96.00
RFV Analysis - \$20.50
Minerals - \$24.75
Basic/NDF - \$27.50

Wet Chemistry Options

Fermentation Analysis - \$23.75
Fermentation Analysis Plus - \$33.75
Yeast/Mold Count - \$23.75
Mold Identification - \$43.75
Corn Silage Processing Score - \$18.50
Physically Effective NDF - \$18.50
Mycotoxin Screen (*Quantitative*) - \$67.75
Aflatoxin B1, B2, G1 G2 - \$38.50
Vomitoxin - \$38.50
Fumonisin - \$68.75
Fatty Acid Profile - \$89.50
Free Fatty Acids - \$20.50
Heavy Metal Profile - \$58.00

Invitro Digestibility Options

Invitro Fiber Digestibility - \$23.50
Invitro Starch Digestibility - \$27.50

Proximate Evaluations

Minimum sample charge is \$11.00. Add \$6.00 processing charge to samples not run with a standard package.

Protein (*combustion*) - \$5.75
Fat (*acid-hydrolysis*) - \$29.00
Fat (*ether extraction*) - \$9.50
Crude Fiber - \$8.50
Ash - \$5.75
Moisture (*135°C for 2 hrs*) - \$5.75

Tag Guarantee Options

(Proximate Evaluation)

Tag Guarantee I - \$23.50
Tag Guarantee II - \$32.75
Tag Guarantee III - \$40.00
Tag Guarantee IV - \$20.00

NIR Analysis Options

These options are available on hays, haylages, corn, corn silages, grain silages, TMR, distillers, and some ingredients.

NIR 1 Analysis - \$16.25
NIR 2 Analysis - \$24.00
NIR 3 Analysis - \$31.00
NIR 4 Analysis - \$37.50
NIR 5 Analysis - \$27.00
NIR Plus Option - \$7.00

Alfalfa Hay Market Options

Alfalfa Hay I (NIR 7) - \$20.75
Alfalfa Hay 2 (NIR 8) - \$25.75
Alfalfa Hay 3 (NIR 9) - \$29.75

TMR Evaluation Options

TMR Control – NIR (weekly) - \$39.00
(If not contracted weekly, price is \$49.00)
TMR Control – CHEMISTRY (weekly) - \$47.50
(If not contracted weekly, price is \$59.00)
TMR Mixer Evaluation - \$91.50
Set of 5 samples needed to assess mixer efficiency
TMR Diagnostic - \$145.00

Insitu Digestibility Options

Protein Digestibility at 16 hrs - \$88.50
Starch Digestibility at 2 or 7 hrs - \$88.50
NDF Digestibility at 30 or 48 hrs - \$78.50
Dry Matter Digest. at 30 or 48 hrs - \$55.00

Amino Acids

Cystine, and Methionine - \$77.50
CML plus 9 - \$102.50
(cystine, methionine, lysine plus 9 others)
Full Profile without Tryptophan - \$138.00
Full Profile - \$160.00

Water Analysis

Total Coliform & E. Coli - \$19.00
Nitrate Nitrogen and pH - \$13.00
Livestock Suitability Package - \$35.50

Cumberland Valley Analytical Services - Domestic/Canada Price List

Manure Analysis

Base Test Package 1 - \$34.50
Base Test Package 2 - \$29.00
Base Test Package 3 - \$26.00

Available Add-on Options Include:

Water Soluble Phosphorus - \$10.50
Trace Minerals - \$7.50
(Ca, Mg, Na, Fe, Mn, Zn, & Cu)
Volatile Solids - \$5.50
pH - \$5.50
Total Carbon (C/N) - \$5.50

Individual Components

Please add \$6.00 processing charge to each sample not run with a package.

ADF - \$5.75
ADF (ash-free) - \$8.75
ADF-CP - \$5.75
Ammonia Nitrogen - \$10.50
Ash - \$5.75
Boron - \$10.00
Chloride - \$5.75
Crude Fiber - \$8.50
Crude Protein - \$5.75
Cobalt - \$35.50
Degradable Protein (*Strep. gresius*) - \$11.00
Dry Cow Option - \$10.25
Dry Matter - \$5.50
Ergonovine - \$105.00
Fat (*acid-hydrolysis*) - \$29.00
Fat (*ether extraction*) - \$9.50
Gossypol - \$115.50
Initial Peroxide (*on liquid*) - \$29.50
Initial Peroxide (*on dry*) - \$90.00
Iodine - \$75.50
Karl Fisher Moisture - \$42.00
KOH - \$46.00
Lead - \$33.50
Lignin - \$9.50
Micron Particle Size - \$18.50
Molybdenum - \$10.50
NDF - \$5.75
NDF (ash-free) - \$8.75
NDF-CP - \$5.75

Nitrate - \$10.50
Non-Protein Nitrogen (NPN) - \$25.50
Particle Size Evaluation - \$7.50
Pepsin Digestibility - \$46.00
Prolamin - \$18.00
Protein Dispersibility Index - \$42.00
(*includes PDI, CP and Urease Activity*)
Prussic Acid (Cyanide) - \$55.00
Rumensin (*Monensin*) - \$94.50
Salt (*as chloride*) - \$5.75
Selenium - \$38.50
Soluble Fiber (*M. B. Hall*) - \$45.00
Soluble Protein - \$5.75
Starch - \$11.00
-Gelatinized Starch - \$58.00
-Ungelatinized Starch - \$8.00
(*enzyme available*)
Sugar - \$9.00
Sulfur - \$5.75
(\$6.00 Additional Charge for High Sulfur)
Trypsin Inhibitor - \$100.00
Urea - \$24.50
Urease Activity - \$22.00
Vitamin A - \$66.00
Vitamin D - \$120.00
Vitamin E - \$120.00
Vitamin A,D,E - \$278.00
5/6 Carbon Sugar - \$27.00

For more information pertaining to each individual assay, please visit our website: www.foragelab.com or email us at mail@foragelab.com.

Prices as of September 1, 2011.

Prices are subject to change without notice.
