

# CUMBERLAND VALLEY ANALYTICAL SERVICES

*" Laboratory services for agriculture ... from the field to the feed bunk "*

**Starting Monday, July 20, 2020**

## **CVAS Central New York Sample Pick Up System**

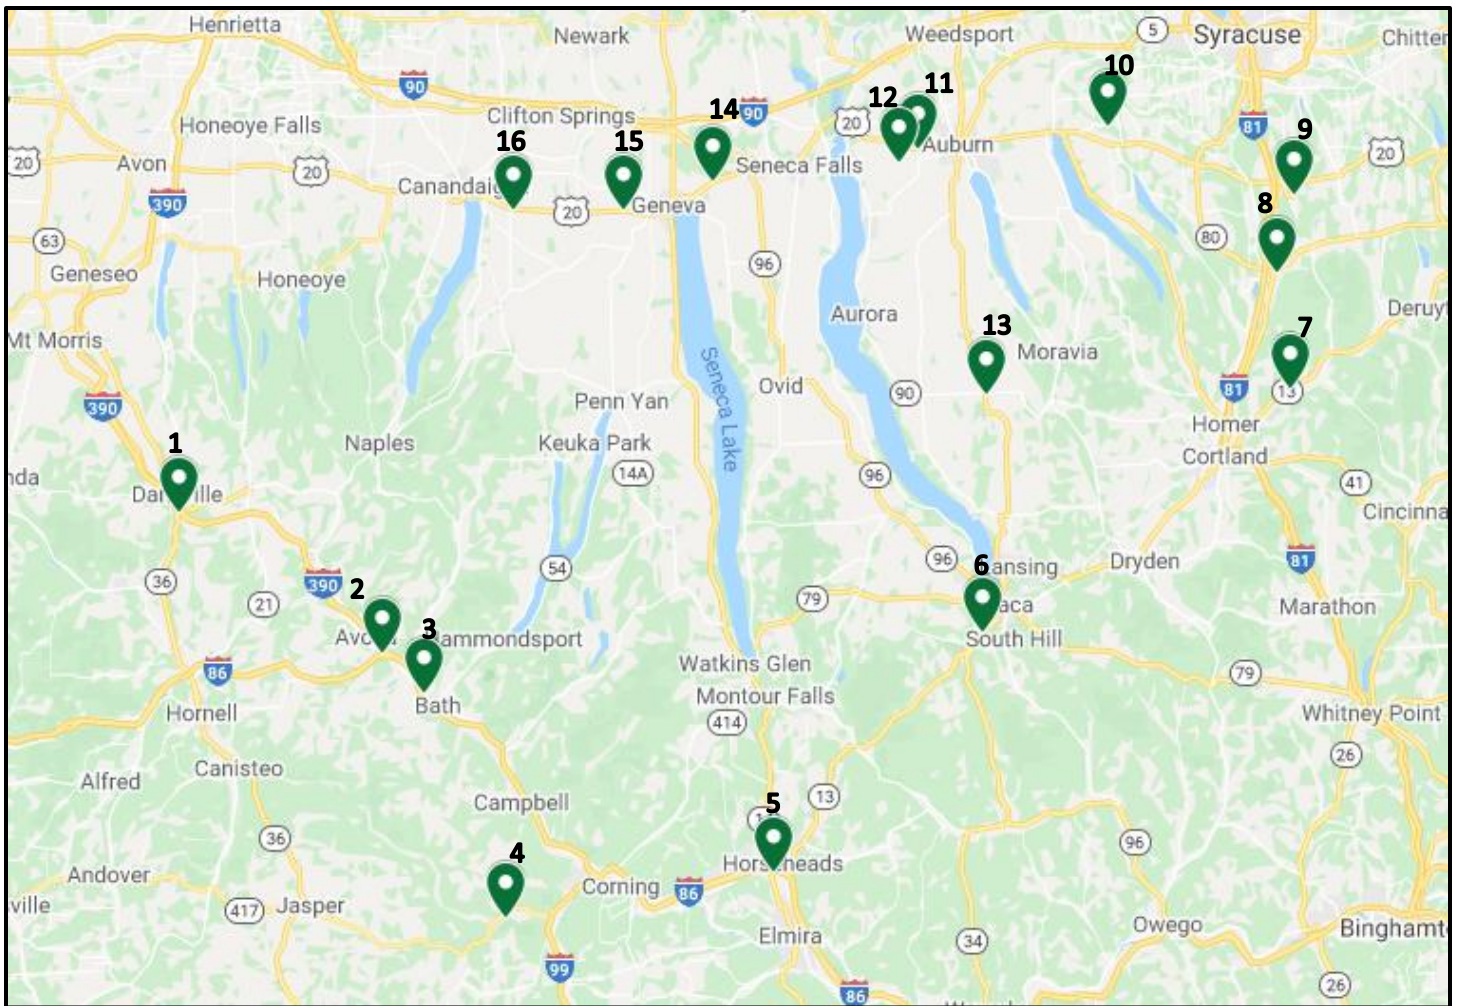

CVAS is pleased to announce drop box locations in Central New York for forage, feed, water and manure samples. Samples left at these locations will be picked up after 10:00 PM starting at Dansville Water Systems in Dansville and heading counterclockwise Finger Lakes Livestock Exchange in Canandaigua. Pick-up will run Sunday through Thursday nights, excluding holidays when the lab is not in operation (see [www.foragelab.com](http://www.foragelab.com) for a list of holiday closings). After the samples are picked up, they will be taken to our Batavia, NY lab for next day processing. (For Western New York refer to our Western New York drop box location listing.)

Please send a text message to the number listed on the top of the drop box with the location, account name, and number of samples dropped off. This will assist us in planning the pick-up on any given day. Drop box locations may change or be increased over time as we obtain feedback from the field.

Results for NIR analysis should be available by the end of the next business day after the sample is picked up. Sample bags and testing information is available at each drop location. Supplies may also be requested by emailing [mail@foragelab.com](mailto:mail@foragelab.com).

Below are pictures of each location, the complete address of each business, and a map with all locations marked (number next to the locations match the locations on the map).

Please be respectful of the businesses that have given us permission to place drop boxes at their locations. Thank them for that privilege if you have the opportunity. We look forward to serving our client needs.
