

# CUMBERLAND VALLEY ANALYTICAL SERVICES

"Laboratory services for agriculture ... from the field to the feed bunk"

## CVAS Idaho Sample Pick Up System

CVAS is pleased to announce drop box locations in Idaho for forage, feed, water and manure samples. **Samples left at these locations will be picked up accordingly**, starting at Campbell Tractor in Ontario, OR and heading south to Western Seeds in Heyburn, ID. **Pick-up will run Monday through Friday**, excluding holidays when the lab is not in operation (*see [www.foragelab.com](http://www.foragelab.com) for a list of holiday closings*). After the samples are picked up, they will be shipped overnight to our Waynesboro, PA lab for processing.

When dropping off samples, please send a text message to the number on the top of the drop box with the location, account name, and number of samples dropped. This information will assist us in planning the pick-up on any given day. Drop box locations may change or be increased over time as we obtain feedback from the field.

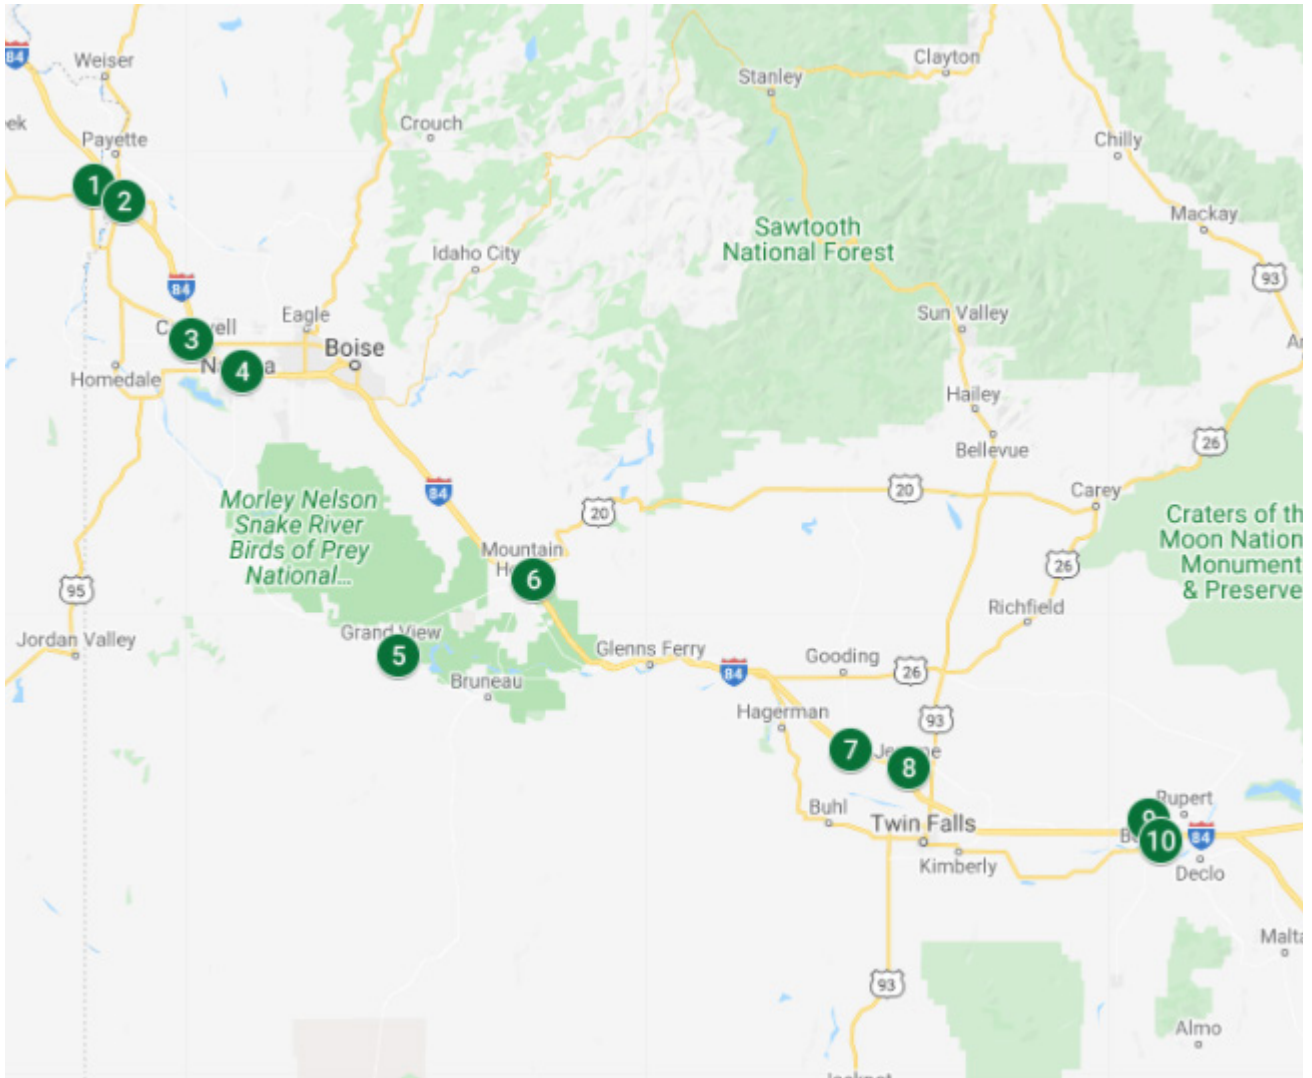

Results for NIR analysis should be available the next business day, following drop off. Sample bags and testing information is available at each drop location. Supplies may also be requested by emailing [mail@foragelab.com](mailto:mail@foragelab.com).

Below are pictures of each location, the complete address of each business, and a map with all locations marked (numbers next to the locations below, match the locations on the map).

Please be respectful of the businesses that have given permission for us to place drop boxes at their locations. Thank them for that privilege if you have opportunity. We look forward to serving our client's needs.

Stop No.	Business	Location	Approx. Time of Pick Up
1	Campbell Tractor	Ontario, OR	11:00 AM
