

CUMBERLAND VALLEY ANALYTICAL SERVICES

"Laboratory services for agriculture ... from the field to the feed bunk"

CVAS South Central PA Sample Pick Up System

CVAS is pleased to announce drop box locations in South Central PA for forage, feed, water, and manure samples! **Samples left at these locations will be picked up according to the times below. Pick-up will run Monday through Friday**, with the exceptions of holidays when the lab is not in operation (*see www.foragelab.com for a list of holiday closings*). After the samples are picked up, they will be taken to our Waynesboro, PA lab for processing. For Eastern PA, refer to our Eastern PA drop box location listing.

When dropping off samples, please send a text message to the number on the top of the drop box with the location, account name, and number of samples dropped. This information will assist us in planning the pick-up on any given day. Drop box locations may change or be increased over time as we obtain feedback from the field.

Results for NIR analysis should be available the day samples are picked up. Sample bags and testing information is available at each drop location. Supplies may also be requested by emailing mail@foragelab.com.

Below are the complete addresses of each business, and a map with all locations marked (numbers next to the locations below, match the locations on the map).

Please be respectful of the businesses that have given permission for us to place drop boxes at their locations. Thank them for that privilege if you have opportunity. We look forward to serving our client's needs.
