

# CUMBERLAND VALLEY ANALYTICAL SERVICES

“Laboratory services for agriculture ... from the field to the feed bunk”

## CVAS Western NY Sample Pick Up System

CVAS is pleased to announce drop box locations in Western New York for forage, feed, water, and manure samples! **Samples left at locations 1-5 will be picked up after 7:00 AM** starting at Attica Veterinary Associates in Attica, NY through the Landpro Equipment in Avon.

**Pick-up will run Monday through Friday**, with the exceptions of holidays when the lab is not in operation (see [www.foragelab.com](http://www.foragelab.com) for a list of holiday closings). After the samples are picked up, they will be taken to our Batavia, NY lab for processing. For Central NY, refer to our corresponding drop box location listings.

Note: **The locations marked with an asterisk (\*) will be picked up on Monday and Wednesday only, by 10AM, with the exception of Western NY Crop Management in Randolph, which will be picked up by 12PM.** (Significant snow may delay the pick-up of samples at times so please plan accordingly.)

When dropping off samples, please send a text message to the number on the top of the drop box with the location, account name, and number of samples dropped. This information will assist us in planning the pick-up on any given day. Drop box locations may change or be increased over time as we obtain feedback from the field. Drivers may skip boxes if we do not receive a text due to traffic backups or weather issues if necessary.

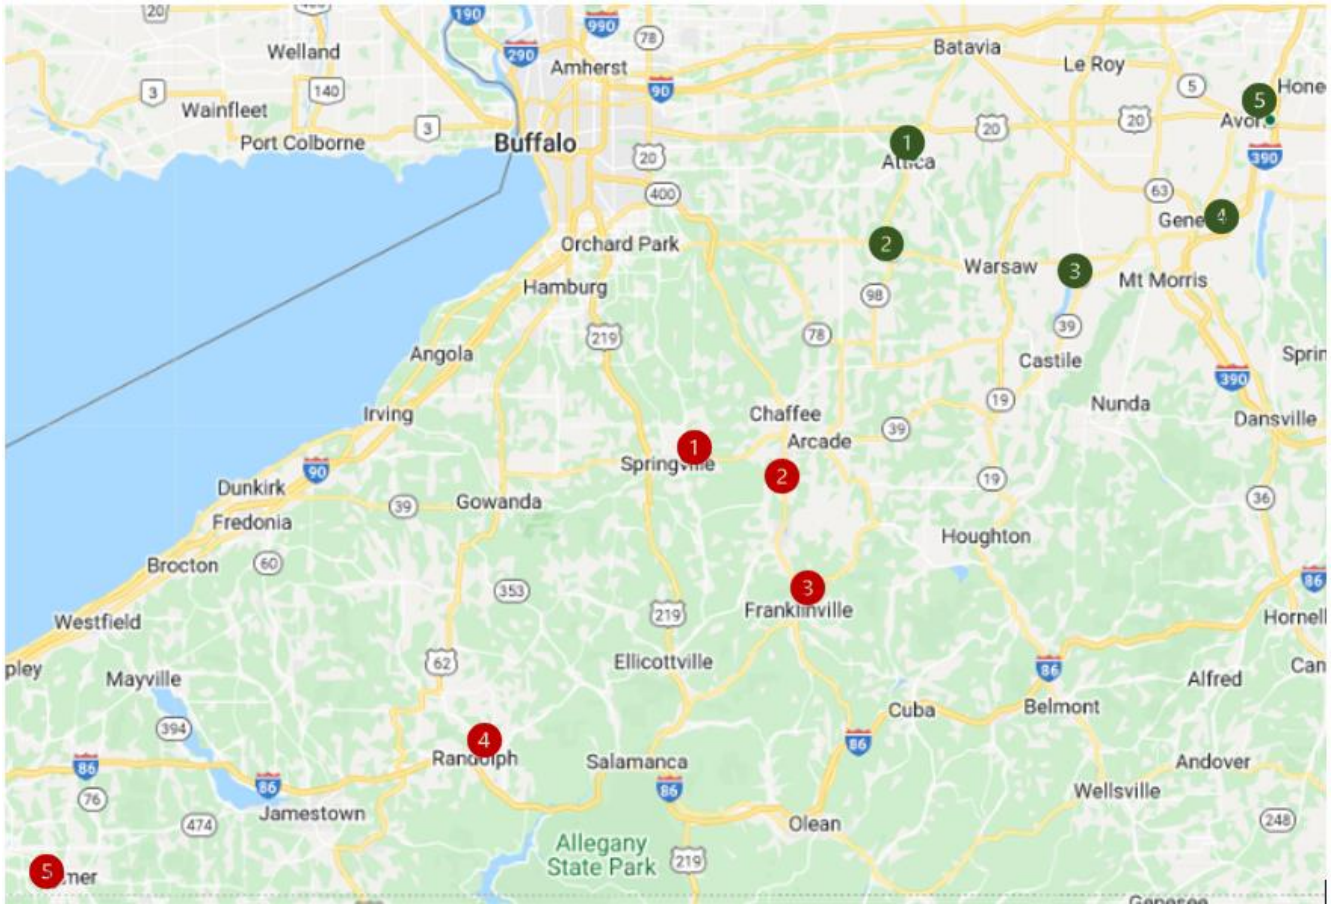

Results for NIR I analysis should be available the next business day, following drop off. Sample bags and testing information is available at each drop location. Supplies may also be requested by emailing [mail@foragelab.com](mailto:mail@foragelab.com).

Below are pictures of each location, the complete address of each business, and a map with all locations marked (numbers next to the locations below, match the locations on the map).

Please be respectful of the businesses that have given permission for us to place drop boxes at their locations. Thank them for that privilege if you have opportunity. We look forward to serving our client's needs.
